

IMPORTANT NOTICE!

On March 19, 2009 Specialized issued a "Stop Sale Notice" to Authorized Specialized Dealers for all 2009 Specialized bicycles that have HL Handlebars, model number HL 13NTFOV. The affected bicycles with these HL handlebars are as follows: 2009 Cross Trail Comp, 2009 Myka HT Comp, 2009 MYKA HT Elite, 2009 Rockhopper Comp, 2009 Rockhopper Comp 29, and 2009 Rockhopper.

RECALLED HL HANDLEBAR, MODEL NO. 13NTFOV

Specialized has determined that the handlebars on the bicycles could break while riding, which could lead to a fall. Specialized reported its findings to the CPSC and is working in conjunction with the CPSC on this corrective action.

Specialized Dealers have been instructed to remove all affected bicycles from the sales floors of their stores and replace the affected HL handlebars with other handlebars.

Specialized is working with CPSC staff on the details regarding the recall from affected bicycles with consumers. Details should be released shortly.

If you have any questions, please contact your local Authorized Specialized Dealer or Specialized at **1-877-808-8154** between 9 a.m. and 5 p.m. MST Monday through Friday.
